After spending 5 years as trade representative and Embassy staff member in New Zealand I feel partly as a Kiwi. I try to promote this wonderful country by my webpage, articles, lectures and bone carving workshops. As agent of several language schools I promote English and other study in New Zealand. I organise trips to New Zealand and I help travellers, jobseekers, migrants and businessmen in relation to New Zealand. I staged exhibition of New Zealand carvers in the past and another exhibition of New Zealand art is one of my goals. I have also experience with trade with New Zealand. I maintain contacts with New Zealand's officials from various fields.
